- Introduced RTM & quality-first frameworks leading to 70% fewer defects, bug-free releases of products worth ~INR 7 Cr+.
- Suggested UI/UX modifications across 3 major products (worth ~INR 4 Cr+), improving usability and end-user adoption.

Servetel Communications, Sales Analyst | Gurugram, India

Jan 2020 - Apr 2022

- Analyzed user behavior, campaign performance, and industry trend data to identify optimization opportunities across marketing channels. Recommended reallocation of ~INR 2 Cr+ in marketing spend, improving budget efficiency and aligning investments with high-performing audience segments and campaigns.
- Conducted market and competitor research to forecast FY22–23 market trends and identify growth opportunities. Delivered strategic recommendations that informed business decisions and contributed to a 230% increase in sales within 6 months.

PROJECTS

Groww Review Analyzer AI Agent | [Website Link](#) | Cursor, Google Stitch, MCP (Gmail, Google Docs), Groq LLM API, GitHub Actions

- Built an AI-powered Voice of Customer agent that aggregates and analyzes weekly App Store and Play Store reviews against a rolling 3-month corpus, generating actionable sentiment insights, prioritizing user pain points, and leadership-ready reports via Google Docs and Gmail drafts, eliminating manual analysis and enabling scalable product decision-making.

RAG Chatbot | [Website Link](#) | Cursor, bge-small-en, ChromaDB, Groq LLM API, Google Stitch, GitHub Actions

- Built an LLM-powered mutual fund Q&A chatbot to address fragmented access to fund information by automating data scraping, parsing, embedding generation, and vector database storage. Implemented a RAG architecture that retrieves relevant fund data and feeds it to a Groq LLM, enabling fast, citation-backed, contextually accurate responses at scale.

Meta Campaign Activation (at WPP Media) | Product Discovery & Roadmapping, Prioritization, Stakeholder Management

- Led the end-to-end automation of Meta campaign activation for India's implementation team to eliminate costly manual-entry errors, delivering a zero-touch setup workflow through a phased product roadmap that navigated high ambiguity. The solution achieved 35% FTE savings, 86% CSAT, and ~INR 1.5 Cr+ in annual departmental savings.
